### **Preliminary Line-Up of Presenters Set for 3rd Annual Stem Cell Summit**

#### ***Largest Gathering of Stem Cell Company Executives, Scientists, Investors and Physicians on Feb. 26 in New York City***

PHILADELPHIA, Jan. 15, 2008 – RRY Publications today announced the preliminary line-up of presenters for the 3rd Annual Stem Cell Summit, which is slated to bring together the largest gathering of stem cell company executives, scientists, investors and physicians in New York City. Participants will learn about the investment opportunities in the stem cell marketplace, the groundbreaking stem cell products physicians are using today and the growing market potential in terms of revenues.

The 3rd Annual Stem Cell Summit will take place on Feb. 26, 2008, at the Hilton New York. Companies and products featured will include executives from:

3DM, Inc.	MG Biotherapeutics, LLC
Aastrom Biosciences, Inc.	Neuronyx, Inc.
Aldagen, Inc.	Novocell, Inc.
AllCells, LLC	Orthofix International, N.V.
Arteriocyte, Inc.	Osiris Therapeutics, Inc.
Athersys, Inc.	PrimeGen Biotech LLC
BioE Corp.	Progenitor Cell Therapy, LLC
Bioheart, Inc.	Regenotech, Inc.
CellGenix Technologie Transfer GmbH	ReNeuron Group plc
Cognate BioServices, Inc.	SpineSmith Partners LP
Cytori Therapeutics, Inc.	StemCyte, Inc.
Gamida Cell Ltd.	Stemina, Inc.
Genzyme Corp.	TiGenix NV
Geron Corp.	Tissue Genesis, Inc.
Harvest Technologies Corp.	Transition Therapeutics Inc.
INCELL Corp. LLC	TriStem Corp.
MaxCyte, Inc.	ViaCell, Inc.
MesoBlast Limited	VistaGen Therapeutics, Inc.

In addition to the company and product overviews, Robin Young, president of RRY Publications and the organizer of the annual Stem Cell Summit, will provide an update on the 10-year market forecast for the industry. A lunch panel of patients who have been treated with stem cells will discuss how the use of stem cell products changed their lives.

“2008 is a year of major developments and advancements in stem cell therapies,” said Robin Young. “We expect to see the industry generating \$100 million in revenue from stem cell product sales in 2008.”
